

4" Super Thin 24V

The company that brought you
The Original Super Slim Line LED
has done it again!

Introducing the 4" Super Slim LED in
24V DC input - model LB4R24V 11W.
Available in 3000K 700lm and 4100K
730lm, White and Black trims.

That's right, install up to 8 lights with a
fully dimmable 96W 24V DC LED driver
mounted remotely.

Perfect for extremely tight spots! The
low voltage installation is simple and
suits both new or existing ceilings where
the LB4R24V can be installed in only
1/2" clearance.

If the space is limited and you cannot
get a driver box in then this 24V fixture
is your total lighting solution.
